

Weald

your partner
in technology

INSANITY...

Doing the same thing
over and over again
and expecting
different results.

Albert Einstein

**We take care of technology whilst
you take care of business.**

Reasons to use us:

- We are focused on our clients success.
- Strong belief in transparency and providing commercial value.
- Our logo was created for a reason...
“We” are your partners in “technology”
- We take responsibility.
- We charge per user / not per device.
- Contracts are simple and can be as short as monthly.
- Free reviews and advice to plan for the future.
- Up to date with relevant products for the SME market place.
- Financially strong, risk averse and frugal.
- Our values mean that we will be careful spending your money too.

Long term relationships matter – we still have our **first clients** and our **first engineer**.

We know we have to do a great job to keep our clients.

“If you don’t have the scale to need your own IT Department. I can’t recommend them enough” Tamara Roberts

A strong and stable partner for any SME serious about technology

We're in "IT" for the long term!

Our founders are still active in the business.

We are financially stable and risk averse

ISO9001:2015 and ISO27001:2013

See the full video testimonial on our web site. An interesting history of competition and friendship over two generations of the Roberts family. We are proud to be the IT supplier to Ridgeview Wine.

"Weald operate as our internal IT department and have done for more than 15 years."

Mathew Wynn, Welland Medical, Crawley

"Mike provides us with quality, timely and above all commercial advice and I am very happy to recommend him."

Nick Rawson,
Knill James, Lewes

Clients, friends and professional advisers for more than 15 years. From two NT4 servers to high availability systems and weekend updates for their software, we have evolved as have KJ.

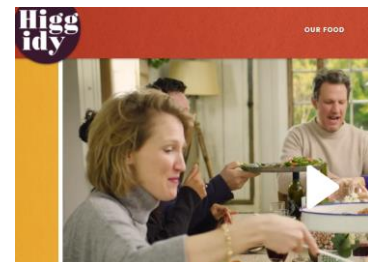

We started working for James and Camilla back in the mid 2000's when they were smaller, much smaller – with around 5 staff, a few PC's and a copy of Sage accounts.

Thirteen years later, things have changed – Higgidy is now a household name employing hundreds of people.

Their needs have changed too.

- 24/7 Support for a 24/7 manufacturing environment.
- High availability systems (VMware)
- RF Connections between warehouses on the same industrial estate
- DR between sites using Veeam Replication
- Regular pro-active on-site named engineer
- Regular IT and Security reviews

Some of the services we offer:-

- Fully embedded on-site presence (outsourcing)
- Regular call, dedicated engineer – weekly, fortnightly, monthly
- Advanced support, per user per month (on-site & remote)
- Remote Helpdesk support
- Online Backup & Replication using ShadowProtect or Veeam
- Security auditing
- Emergency Server cover
- Server Recovery
- Banked Hours (no time expiry)
- VoIP Hosted Phone servers
- Hosted Virtual Private Servers (VPS)
- Office 365 MSP and Admin
- Domain Reg & Hosting

Project work

- Installations, Migrations, Premises Moves

“As Office Manager, it is great to know Weald are behind me, supporting me.”
