

Environmental & Sustainability Statement

Weald Computer Maintenance Ltd trading as Weald IT recognises the importance of minimising the environmental impact of our operations and supporting sustainable business practices. We are committed to operating responsibly and seek to reduce waste, energy consumption and unnecessary environmental impact wherever reasonably practicable.

Our approach includes:

- Promoting remote support and remote meetings where appropriate to reduce travel;
- Responsible recycling and disposal of IT equipment and electronic waste through approved providers;
- Encouraging efficient use of energy and resources within our offices;
- Supporting longer lifecycle use of business technology where secure and operationally appropriate;
- Considering environmental factors when selecting suppliers, services and equipment;
- Maintaining digital-first operational processes where practical.

Weald IT will continue to review and improve its environmental practices as part of its ongoing business operations.
